On interior work, for rough, sand-finished walls or unpainted gypsum board, add 50% to quantities; for each door or window, deduct  $\frac{1}{2}$  pint of materials for walls. For trim, add  $\frac{1}{8}$  to  $\frac{1}{5}$  of the amount required for the body. For exterior blinds,  $\frac{1}{2}$  gallon will cover 12 to 14 blinds, one coat.
